

# Inkomna ansökningar forskningsprogram med inriktning hälsa och prestation inom idrott för barn och ungdom

Dnr CIF 2013/9

| Nr     | Titel  | Huvudsökanden   | Medsökanden   | Lärosäte                                       |
|--------|--|---|---|--|
| 1/2014 | Physical exercise – generating exclusively benefits?   | Maria Faresjö, professor  |   | School of Health Sciences Jönköping University |
|        |  |   | Peter Blomstrand  | School of Health Sciences Jönköping University |
| 2/2014 | The cause-relationship between injuries and nutritional behavior, self-esteem, sleeping habits, self-perceived stress and training variables in adolescent elite athletes. | Annette Heijne  |   | Karolinska institute                           |
| 3/2014 | “The win-win game”. Using interactive media to recruit and retain children in sport activities to increase physical activity   | Catrine Kostenius, docent och biträdande professor i Hälsovetenskap |   | Luleå Tekniska Högskola                        |
|        |  |   | Peter Parnes, Professor in Pervasive and Mobile Systems | Luleå Tekniska Högskola                        |
|        |  |   | Lena Forsberg   | Luleå Tekniska Högskola                        |
|        |  |   | Jonas Linderöth, Associate Professor                    | University of Gothenburg                       |
|        |  |   | Arja Rautio, Research professor                         | University of Oulu                             |
|        |  |   | Raija Korpelainen, professor of health                  | Oulu University                                |
| 4/2014 | Injury-Free Youth Athletes: Towards Best Coaching Practice in Swedish Sport  | Natalie Barker-Rucht, associate professor                           |   | University of Gothenburg                       |
|        |  |   | Jesper Augustsson, associate professor                  | University of Gothenburg                       |
|        |  |   | Karin Grahn   | University of Gothenburg                       |
|        |  |   | Stefan Grau, Professor of Biomechanics                  | University of Gothenburg                       |
|        |  |   | Eva-Carin Lindgren, associate Professor                 | University of Gothenburg                       |
|        |  |   | Klavs Madsen  | University of Gothenburg                       |
| 5/2014 | Neuromuscular training interventions in youth athletes – training effects, injury prevention and implementation  | Martin Hägglund   |   | Linköping University                           |
|        |  |   | Markus Waldén   | Linköping University                           |
|        |  |   | Siw Carlfjord   | Linköping University                           |

|        |  |                            |                                    |   |
|--------|--|----------------------------|------------------------------------|---|
|        |  |                            | Joanna Kvist, Associate Professor  | Linköping University                      |
| 6/2014 | Could Daily School Physical Activity Lead to Improved School Performance and Better Skeleton, Neuromuscular Function and General Health in Adulthood?<br>- A Long-Term Prospective Randomized Controlled Trial (RCT) | Magnus Karlsson, professor |                                    | Lund University                           |
|        |  |                            | Assoc. professor Magnus Dencker    | Lund University                           |
|        |  |                            | Assoc. professor Björn Rosengren   | Lund University                           |
|        |  |                            | Assoc. professor Caroline Karlsson | Lund University                           |
|        |  |                            | Assoc. professor Jack Besjakov ,   | Lund University                           |
|        |  |                            | Assoc. professor Martin Englund    | Region Skane                              |
|        |  |                            | Professor Mattias Lorentzon        | Sahlgrenska, Gothenburg                   |
|        |  |                            | Senior Lecturer Ingegerd Ericsson  | Malmö University                          |
|        |  |                            | Professor Tomas Peterson           | Malmö University                          |
|        |  |                            | Professor Lars Bo Andersen         | University of Southern Denmark, Odense    |
|        |  |                            | Professor Robin Daly, S, Deakin    | University, Melbourne, Australia          |
| 7/2014 | IMPLEMENTATION STRATEGIES OF INTERVENTIONS TO PREVENT INJURY AND ENHANCE PERFORMANCE IN YOUTH TEAM HANDBALL  | Eva Ageberg, docent        |                                    | Lund University                           |
|        |  |                            | Robert Holmberg                    | Lund University                           |
| 8/2014 | Get out and play! Improving returning to sport after serious injury  | Joanna Kvist, docent       |                                    | Linköping University                      |
|        |  |                            | Clare Ardern                       | La Trobe University, Melbourne, Australia |
|        |  |                            | Gerhard Andersson                  | Linköping University                      |
|        |  |                            | Kate Webster                       | La Trobe University, Melbourne, Australia |
| 9/2014 | Malmö Youth Sport Program (MYSP)   | Tomas Peterson, professor  |                                    | Malmö University                          |
|        |  |                            | Ann Bremander                      | Halmstad University                       |
|        |  |                            | Sofia Bunke                        | Lund University                           |
|        |  |                            | Magnus Dencker                     | Skåne University Hospital                 |
|        |  |                            | JOAN L. DUDA                       | University of Birmingham                  |
|        |  |                            | Ingegerd Ericsson                  | Malmö University                          |
|        |  |                            | Kari Fasting                       | Norwegian School of Sport Sciences        |
|        |  |                            | Susanna Hedenborg                  | Malmö University                          |

|         |   |                          |                      |   |
|---------|---|--------------------------|----------------------|---|
|         |   |                          | Joakim Ingrell       | Malmö University                                    |
|         |   |                          | Urban Johnson        | Halmstad University                                 |
|         |   |                          | Magnus Karlsson      | Lund University,                                    |
|         |   |                          | Kelly Knez           |   |
|         |   |                          | Marie Larneby        | Malmö University                                    |
|         |   |                          | Johan R Norberg      | Malmö University                                    |
|         |   |                          | Charlotte Olsson     | Halmstad University                                 |
|         |   |                          | Ola Thorsson         | Lund University                                     |
|         |   |                          | Per Wollmer          | Lund University                                     |
| 10/2014 | Injuries in the shoulder complex in adolescent elite handball players   | Eva Skillgate            |                      | Karolinska Institutet                               |
|         |   |                          | Markus Waldén        | Linköping University                                |
|         |   |                          | Lena Wiviann Holm    | Karolinska Institutet                               |
|         |   |                          | Henrik Källberg      | Karolinska Institutet                               |
| 11/2014 | Physical activity interventions for health and cognitive functioning in a school context in a European perspective                                | Gunvor Gard, professor   |                      | Lund University/Luleå University of Technology      |
|         |   |                          | Erwin Apitzsch       | Lund University                                     |
|         |   |                          | Anita Wisén          | Lund University                                     |
|         |   |                          | Liselott Persson     | Lund University                                     |
|         |   |                          | Karsten Bruun Hansen | Copenhagen  |
|         |   |                          | Carme Viladrich      | Universitat Autònoma de Barcelona                   |
| 12/2014 | Primary prevention of overuse injuries in youth athletics: An implementation research program (Athletics-KLUBS)                                   | Toomas Timpka, professor |                      | Linköping University                                |
|         |   |                          | Jenny Jacobsson      | Linköping University                                |
|         |   |                          | Örjan Dahlström      | Linköping University                                |
|         |   |                          | Armin Spreco         | Linköping University                                |
|         |   |                          | Victor Bargoria      | Linköping University/Moi University, Eldoret, Kenya |
|         |   |                          | Joakim Ekberg        | Linköping University                                |
|         |   |                          | Jan Kowalski         | Linköping University                                |
| 13/2014 | Sports clubs as health promoting settings – are they?   | Mikael Quennerstedt      |                      | Örebro universitet                                  |
|         |   |                          | Susanna Geidne       | Örebro universitet                                  |
|         |   |                          | Stephen Widén        | Örebro universitet                                  |
|         |   |                          | Sami Kokko           | University of Jyväskylä                             |
| 14/2014 | Combining performance development and health promotion – A study on strategies, practices and consequences in Swedish children's and youth sport. | Josef Fahlén, docent     |                      | Umeå university                                     |
|         |   |                          | Paul Sjöblom         | Stockholm university                                |
| 15/2014 | Training adaptations in skeletal muscle of adolescents  | Christer Malm, professor |                      | Umeå University                                     |

|         |   |                          |                            |                                     |
|---------|---|--------------------------|----------------------------|-------------------------------------|
|         |   |                          | Craig Williams             | University Of Exeter                |
|         |   |                          | Neil Armstrong             | University Of Exeter                |
|         |   |                          | Bengt O. Eriksson          |                                     |
|         |   |                          | Sébastien Ratel            | Université Blaise Pascal            |
|         |   |                          | Keith Tolfrey              | Loughborough University             |
|         |   |                          | Michail Tonkonogi          | Dalarna University                  |
|         |   |                          | Örjan Ekblom               |                                     |
|         |   |                          | Magnus Domellöf            | Umeå University                     |
|         |   |                          | Svante Holmberg            | Umeå University                     |
|         |   |                          | Apostolos Theos            | Umeå University                     |
| 16/2014 | Relative Energy Deficiency in Young male and female athletes- The Nordic REaDY project - An international multidisciplinary multicentre study | Åsa Tornberg             |                            | Lund University                     |
|         |   |                          | Anders Sjödin              | Copenhagen University               |
|         |   |                          | Jorunn Sundgot-Borgen      | Norwegian School of sports sciences |
|         |   |                          | Monica Klungland Torstveit | University of Agder, Norway         |
|         |   |                          | Anna Melin                 | Copenhagen University               |
|         |   |                          | Petra Lundström            | Karolinska Institutet               |
